

WINNY CHEN

Junior Web Developer

Profile

An upcoming web developer who is looking for their first junior position. An eternal learner, passionate about coding, design and new technology. Background in financial planning and customer service.

Key Projects

Personal Portfolio

2021 | [View Github Repo](#) | [View Site](#)

- This is my first full static website created by HTML, CSS and SASS.

Ruby terminal app

2021 | [Github Repo](#)

- This app aims to users who want to booking a dog boarding service when they are on a trip.
- Built with Ruby(four gems applied), TDD with RSpec.

Dog Time

2021 | [View Github Repo](#) | [View Site](#)

- A two-sided marketplace app where users can upload, buy and sell their trained dogs for depressed people.
- Main features include images upload via AWS S3, user login with authentication, user authorisation and payment processing by Stripe.
- App is created by Rails with PostgreSQL database and deployed by Heroku.

Todo List

2021 | [View Github Repo](#) | [View Site](#)

- This app aims to users who want to better manage their tasks by creating or delete the tasks.
- This is my first react app I used to practice props between different components.

Bitcoin Tracker

2021 | [View Github Repo](#) | [View Site](#)

- This app aims to show the daily price of currency in a latest month by line chart.
- This app I used to practice react hooks as well as API integration.
